About

My interests include technology and computers, both software and hardware. I therefor study computer engineering at Åbo Akademi University in Turku to become a software programmer.
My friends usually think of me as a brilliant, honest and fun person to be around, yet with the proper amount of austerity when it is required. I spend my free time with my girlfriend or with my hobbies which includes RC airplanes and computer gaming.

Objectives

I aim to get my bachelor's degree in computer engineering in the spring this year and continue studying for the master's degree in the fall. Through my education I aim to either start my own business or work as a programmer.

Education

Kyrkslätt Gymnasium

June 2013, Secondary School Graduate

Score: (rated 4-10 : IABCMEL)

- Mathematics (long):   B
- Physics: B
- Chemistry   B
- Biology: B
- Swedish (MT)   C
- Finnish (SL)   M
- English   M

Kyrkslätt Gymnasium

June 2013, Secondary School Graduate

Some courses:	Score (1-5)
Programming 1 & 2 (Java)	5
Project oriented programming 1 & 2 (Java)	5
C/C++	3
